

## Mr Viral Shah

Mr Viral Shah is a fellowship-trained Orthopaedic Surgeon with over 20 years of experience. He completed sub-specialty training in joint replacement, trauma and shoulder surgery in Japan and the USA, as well as at St. Vincent Hospital, Sydney and The Alfred Hospital, Melbourne.

Mr Shah is devoted to the prevention, diagnosis and treatment of disorders of the bones, joints, ligaments, tendons and muscles. He has a special interest in technologically assisted minimally invasive joint replacements, sports injuries, and shoulder problems... Mr Shah is committed to delivering high quality medical care. He believes in incorporating technology into his practice and uses patient matched technology and computer navigation in his joint replacement surgeries.

Mr Shah is actively involved in medical education and is currently a member of Royal Australian College of Surgeons Educators Committee. He is a current associate lecturer at Melbourne University and has been a conjoint lecturer at Flinder's University for many years. Mr Shah is also a member of many professional peak body organisations related to medicine and Orthopaedics.

Mr Shah places a strong emphasis on the importance of clear and honest communication with his patients with consulting appointments spaced out to allow thorough discussion time regarding treatment options.

Mr Shah consults and operates at multiple locations across Melbourne and operates at various hospitals including Vermont Private Hospital.

Mr Shah also provides no gap joint replacement program for appropriately insured patients.
